Cal OES COASTAL REGION

Urban Shield Exercise, Alameda County

On 09/06/18 to 09/10/18, Alameda County is hosting the 2018 Urban Shield Exercise. Urban Shield has grown into a comprehensive, full-scale regional preparedness exercise assessing the overall Bay Area UASI Region's response capabilities related to multi-discipline planning, policies, procedures, organization, equipment and training. Urban Shield continues to test regional integrated systems for prevention, protection, response and recovery in our high-threat, high-density urban area.

- Alameda County will be activated for Urban Shield. Level 3 (highest Level), 09/06/18 to 09/10/18 from 0500-0500 hours daily.

WEATHER OF CONCERN

Weather of Concern

- Heat increases with continued dry conditions across the region today .
- Unhealthy to hazardous Air Quality in Shasta Valley due to the Delta Fire.
- The National Weather Service has issued an Excessive Heat Warning in effect from Saturday morning through Saturday evening for Riverside and Imperial Counties. High Heat Risk. Afternoon temperatures 104 to 115.

Weather Advisories, Watches, and Warnings currently active in California:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca>

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER SYNOPSIS BY REGION

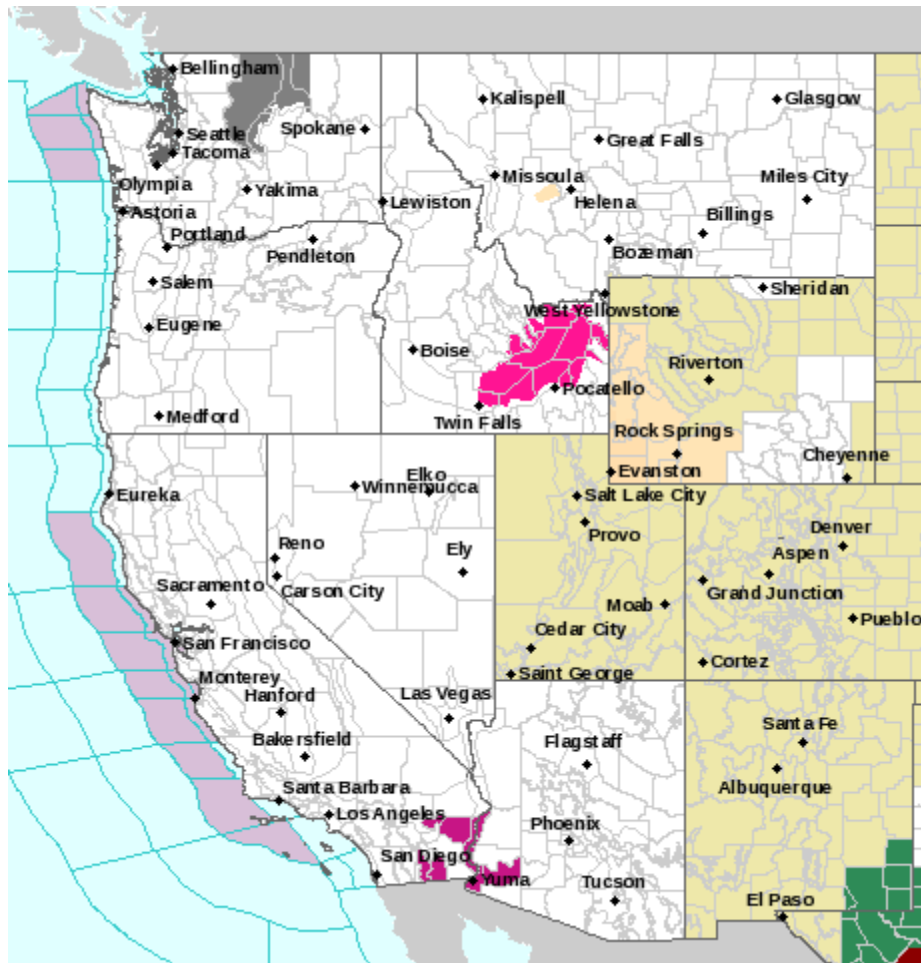

NORTHERN CALIFORNIA

- Gusty afternoon W winds and low relative humidity (RH) today east slopes of Coast Range into Western Sacramento Valley
- Gusty, mostly SW wind expected to develop Tuesday and Wednesday afternoons next week
- An evolving low pressure trough pattern will have most influence over the region for the next 7 days
- Cooler weather/higher RH many areas after Tuesday through end of next week as a stronger trough moves through the region, no thunderstorms or precipitation expected with that change in weather pattern
- Gusty afternoon W winds/low RH developing today east slopes of Coast Range into the western Sacramento Valley, gusts mostly 15-25 mph, locally to around 30 mph.
- Gusty afternoon SW winds near and east of the Cascade/Sierra crest, gusts mostly 20-25 mph
- Lighter winds most areas Saturday, wind a little stronger again Sunday
- Low afternoon RH/poor to moderate overnight RH recovery at least through Monday will be rather wide spread, areas of overnight thermal belt conditions developing mid and upper slopes
- Temperatures somewhat above seasonal values inland next few days, warmest locations mid and upper 90s, followed by cooling next week to more seasonable values in the lower 90s warmest inland places

SOUTHERN CALIFORNIA

- A ridge of high pressure will expand eastward into the area, resulting in sunny and much warmer weather the next few days. A series of troughs will bring a slow cooling trend Sunday through the middle of next week.
- Warming trend will begin today. The hottest day will be Saturday when highs will be in the 80s in the mountains to 100-105 in the valleys and lower foothills. Look for temperatures to decrease 1-2 degrees each day Sunday through the middle of next week.
- Northwest winds of 10-20 mph each afternoon along the central coast through Sunday. Local north winds of 10-20 mph tonight in Santa Barbara County and the I-5 Corridor tonight and again Saturday night.
- Minimum RH falling into the 10-15% range for 6-8 hours each afternoon away from the immediate coast. Recovery will be good, except Santa Barbara County and northern Los Angeles County. Thermal belts will form due to clear skies and a dry airmass.
- No precipitation is expected through the period.
